Modi victory...

In Karnataka, too, while the BJP is projected to lose some seats, the INDIA bloc is not projected to gain as many as expected following the Congress's victory in the Assembly polls. In Andhra Pradesh, most exit polls predicted a sweep for the BJP-TDP-Jana Sena combine, while in Telangana the BJP is projected to better its tally compared to 2019.

In 2019, an average of 13 exit polls put the BJP-led NDA's combined tally at 306 and the Congress-led UPA's at 120 — underestimating the NDA's performance, which won 353 seats in all. The UPA got 93. Of these, the BJP won 303, and the Congress 52. Both BJP and Congress had improved their tallies in comparison to 2014. However, BJP recorded an increase more than Congress despite anti-incumbency against candidates on various seats. In 2014, an average of eight exit polls estimated the BJP-led NDA winning 283 seats and the Congress-led

UPA 105 seats. However, riding high on 'Modi wave' NDA finished with 336 seats and the UPA got mere 60 seats. Of these, the BJP won 282 and the Congress 44. NDA replaced UPA at the Centre. In 2009, too, when the UPA came back to power, an average of four exit polls had underestimated the tally of the winner. They gave 195 seats to the UPA and 185 to the NDA. The UPA finally won with 262 seats, the NDA got restricted to 158. Of these, the Congress won 206 seats and the BJP 116.

"We are very hopeful that we will start seeing green shoots with the election results. I think things will turn around," Banerjee added. Banerjee said the company is going to introduce limited-edition trims of its entry level cars—Alto K10, S-Presso and Celerio—to rejuvenate small car segment. The Dream Series edition trims of the three models will be launched at a

As Q-comm stretches itself, others play patience game

"Categories that are standardised and require basic discovery and logistics efforts such as beauty, small electronics and accessories, and standard apparels like innerwear, basic T-shirts have potential to sell well on quick-commerce. But non-standard categories that require customers to spend time on discovery or have complex logistics needs (like large appliances, apparels, furniture) are difficult to win on quick-commerce," he says.

Despite the speedy adoption and staggering growth, many feel the high-turn business model is not profitable. It requires players to get dark stores closer to customers and look beyond an average order value (AOV) of around ₹500. "The additional and big-ticket product portfolio needs to add cost structure which also means additional capital, more in-store offerings and upkeep of real estate and supply," shares a senior Gurugram-based executive working at a quick-commerce firm, not wishing to be identified.

As Karan Taurani, SVP, Elara Capital, says, "Today customers are getting famil-

iar with ordering groceries and other items within 10 minutes. It is a convenience-led game, and it is definitely eating up the market share of e-commerce, but only reliable deliveries will sustain the demand."

For many brands like Good Glamm, Q-comm is a big sales avenue. "Blinkit is our top e-commerce partner for our MyGlamm POUT by Karan Johar lipstick.

Across MyGlamm, quick commerce contributes close to 20% of our e-commerce sales," says Ketan Bhatia, group brand director, Good Glamm Group.

"During special days, when the demand for gold and silver coins is high, it helps us reach a wider range of end consumers," says MP Ahammed, chairman, Malabar Gold, who supplied about 75,000 gold coins to Blinkit during the last Dhanteras and recent Akshaya Tritiya.

So even as Blinkit founder Albinder Dhindsa posts on X, "We've already delivered 13 of these since morning!" for air coolers, and PlayStation 5 went out of stock within a week, reports have a word of caution. As per a report by JM Financial Institutional Securities, the multiple facets spread across sourcing, distribution, warehousing, inventory management, logistics, demand forecasting, dark store operations and customer experience, amongst others, need to work in sync for the model to be viable.

price point of ₹4.99 lakh (ex-showroom), he said. Sales of Maruti Suzuki's mini segment cars declined to 9,902 units from 12,236 units in May 2023. Hyundai Motor India saw a 1% year-on-year increase in domestic dispatch of vehicles to dealers. Its wholesales rose to 49,151 units in May as compared to 48,601 units in May 2023. Hyundai Motor India

COO Tarun Garg said the sales growth this FY is anticipated to remain in low single digit range. "In April the industry grew by around 1.5%, so April plus May the industry growth should be around 2-2.5% over same period last year," he said.

Tata Motors said its passenger vehicle sales, including electric vehicles, in the domestic market, were up 2% at 47,075

units compared to 45,984 units in the year-ago month. Mahindra & Mahindra reported a 31% year-on-year increase in passenger vehicle dispatches last month at 43,218 units. It had sold 32,886 units in May 2023. Toyota Kirloskar Motor reported a 24% Y-o-Y increase in total wholesales in May at 25,273 units as compared to that of same month last year. Kia

MG Motor India reported a 5% dip in wholesales at 4,769 units in May compared to the same month last year. It had dispatched 5,006 units to dealers from 4,660 units. "We aligned our sales plan during the month, focusing on retail and creating comfortable buying experience for our customers. While we expect conditions to get more conducive with onset of monsoons in June...", added Behl.

According to EC data, the overall voter turnout in the six phases saw a decline of 1.55 percentage points from 67.18% in 2019 to 65.63% this time. 94 constituencies witnessed a drop in the absolute number of voters this time.

Delhi's 52.9 degree reading was due to malfunction: IMD

PRESS TRUST OF INDIA New Delhi, June 1

THE INDIA METEOROLOGICAL Department on Saturday said the temperature reading of 52.9 degrees Celsius by an automatic weather station (AWS) at Mungeshpur in northwest Delhi was due to a "malfunctioning sensor" and said that such devices deployed for weather observations will be examined. The weather office had dispatched a team of experts to Mungeshpur after an AWS deployed there recorded a maximum temperature of 52.9 degrees Celsius on May 29

to examine the device for errors, if any. "The temperature sensor of AWS Mungeshpur is found to report about three degrees Celsius higher maximum temperature than the maximum temperature reported by the standard instrument," the IMD said and attributed the readings to "malfunctioning of the sensor" of the AWS. "We will examine AWS, course corrections, if any, will be carried out on an individual basis," said IMD Director General Mrutyunjay Mohapatra, adding that the faulty sensor of the Mungeshpur AWS would be replaced in a few days.
